

Photonics 4 Aeronautics: Aiming High

Madrid, 24th November 2017

The Spanish Technology Platform **Fotonica21** organizes, together with the PAE (Spanish Aerospace Platform) and SECPhO (Southern European Photonics Cluster), the Seminar **Photonics 4 Aeronautics: Aiming High** that will take place the next 24th November 2017 in Madrid.

The event is devoted to the use of photonic technologies in a range of applications in the aeronautical industry, from laser based manufacturing to inspection, maintenance, operations, navigation or avionics.

ADDRESSED TO

Addressed to professionals, companies, technology providers and research institutes in the aeronautical sector willing to know about the latest trends in photonics technologies for aeronautics.

VENUE

IBERCENTER - AZCA

Plaza de Carlos Trias Bertrán, 4 (Holiday Inn building)
28020 MADRID

DATE AND SCHEDULE

Date: 24th November 2017

Schedule: from 9.15 to 14.00 hours

REGISTRATION

Participation is free, however places will be allocated on a first come, first served basis due to room capacity. To register please fill in the form available [here](#).

PRELIMINARY PROGRAMME

- 9.00 to 9.15h Registration
- 9.15 to 9.30h Welcome and opening
- 9.30 to 10.00h **Taxonomy of aeronautics sector and roadmap of photonics industry**
- 10.00 to 11.00h **Aeronautics industry needs in relation to photonics**
- 11.00 to 11.20h Networking Coffee-Break
- 11.20 to 12.30h **Technology offer by photonics sector**
- 12.30 to 12.45h Networking Coffee-Break
- 12.45 to 13.45h **Round table on future research priorities**
- 13.45 to 14.00h Closing
- 14.00h Lunch
